

Transfer Students

- 📖 Students need a minimum of a 2.75 GPA to transfer into the Department of Exercise Science (EXSC). If you are a student in EXSC and leave the department, you must have a 2.75 to be accepted back into EXSC.

- 📖 Students transferring into EXSC must follow all of the same requirements as incoming freshmen, including prerequisite requirements. Students must complete the following prerequisite courses before taking EXSC 223 and/or EXSC 224, Anatomy & Physiology I and II, respectively:
 - ENGL 101 and 102
 - BIOL 101 & 102
 - CHEM 111
 - MATH 122 (Calculus for Business and Social Sciences), or MATH 141 (Calculus I)
 - MATH 141 is required in the Scientific Foundations track; all other tracks accept MATH 122.

- 📖 Transfer students who have taken Anatomy & Physiology (A&P) I in another department or at another university and received a grade of “C” or higher, may receive credit for EXSC 223.

- 📖 Transfer students who have taken both A&P I & II in another department or at another university may receive credit for successful completion of A&P I **and** retake Anatomy & Physiology II (EXSC 224), **or** they may take a placement test for A&P I and II.
 - A passing score of 75% on both parts (A&P I and II) will grant the student credit for EXSC 223 and 224.
 - A failing grade on both parts will place the student into EXSC 223.

- 📖 It is important to note that students transferring into EXSC may find it will take longer than 4 years to graduate.
